

Coffee

(*Coffea arabica*)

More legends are connected to the discovery of coffee. One of them is the myth of Kaldi and his dancing goats. The stimulating effect of coffee has been discovered by Kaldi, the goat herder in Abyssinia according to the story. The herd was grazing and nibbling on a strange bush with red berries and leaves, and consequently they stayed vivid throughout the evening, whereas other times they had been calm and peaceful. Next day Kaldi tasted the strange red berries himself, and discovered the stimulant effect of coffee beans. For he was fearful of the origin of this freshness he experienced, and feared it was from the Devil, he visited a holy person in his home village and asked his opinion on the berries. The holy person threw the berries in the fire, from which enticing aroma billowed to their utmost surprise. Coffee beans are roasted ever since.

An other myth says, the ill Mohamed prophet was given the coffee as a gift from archangel Gabriel. Drinking coffee, he became so vital and strong, so he had the energy to unhorse forty men and please forty women. A different legend claims the coffee ber-

ries saved the life of a disciple of Sheik Omar, founder of the Shadhiliyya Sufi Order (Abu al-Hasan al-Shadili Sheik), who was lost in the desert. Sheik Omar was famous for healing with the power of prayer. Following the wondrous escape from the desert he returned to Mocha, where later on he became respected as saint.

There are no existent documentary about when coffee started to be used as primary ingredient to stimulant beverages, also when and how the different ways of roasting, grinding and brewing were discovered. What we know for sure is that *Coffea arabica* has been grown in Arabia ever since the VI. century. Also there is a document, connected to Jabir Geber (Abu Musa Jaszbir ibn Hayyān), Arab naturalist, who refers to this plant as a herb. Also a Persian author, Rhazes (Muhammad ibn Zakariyā Rāzī) describes the positive effects of coffee (quawa plant) in his works during the IX. century.

In a work of Avicenna (Abū 'Alī al-Husayn ibn 'Abd Allāh ibn Sīnā) from the XI. century, called The Canon of Medicine he describes coffee as curative even.

The Coffee

(Coffea arabica)

Main components of coffee:

Caffeine (0,3–2,5 %), Phenol carboxylic acids (3–5 %, Chlorogenic acid, Caffeic acid), Aromatic substance, Polyphenols with antioxidant properties, and Fatty Oil

There are more than one hundred components that are responsible for the aroma of the coffee, that is created by the process of roasting.

Coffee (for the caffeine content) - by a modest consumption - stimulates the central nervous system and the heart, also acts as vasodilator, raises blood pressure, enhances the effect of analgesic medicines, boosts gastric juice secretion and stimulates the respiration centre.

The chlorogenic acid found in coffee is diuretic and antibilious in effect.

Recently performed experiments prove that drinking coffee is not as harmful as many believed so. According to the results of a certain examination in the field suggest that the active substance in coffee reduces the risks of gall bladder sickness, also for its polyphenol content, that is antioxidant in effect, coffee merits as high consideration as tea or garlic!

Did you know?

- Pope Clement VIII said: „This devil's drink is so delicious...we should cheat the devil by baptizing it.” - from that time on Coffee has been a point of common agreement between the Christian and Muslim world?
- J. S. Bach composed his famous Coffee Cantata as a taunt to a contemporary movement that claimed coffee causes female infertility?
- According to contemporary narratives Balzac drank cca. 50.000 cup of coffee in his life, working during even nighttime on his works. And Voltaire is also said to have had 50–70 cups of his favorite drink every day?
- One cup of coffee contains 2–3 times more antioxidant substance than the same amount of green tea?
- DXN Coffee products are offered by Individually designed DXN coffee machines as well?
- A new marketing tool is available by the title ‚Thoughts on Coffee’, a book published by DXN Europe Ltd.?

Lingzhi Black Coffee

DXN Lingzhi Black Coffee is a formula of a unique recipe that contains the finest quality of instant coffee and Ganoderma extract. DXN Black Coffee has no sugar added to and it is suitable for those who would like to limit their sugar intake.

Ingredients

Instant Coffee Powder, Ganoderma Extract

Nutrition facts

100 g 4,5 g

Calories 340 kcal 15 kcal

Carbohydrate 54,6 g 2,5 g

Protein 22,9 g 1,0 g

Fat 3,3 g 0,1 g

Did you know?

- Only one bag of Lingzhi Black Coffee contains more than 4 g instant coffee of premium quality?

Net weight: 20 bags x 4,5 g

Free from preservatives, artificial food coloring, flavors, additives, grains and any components of animal origin. It's a fine choice of black coffee!

Product code: FB054

Lingzhi Coffee 3in1

DXN Lingzhi Coffee 3 in 1 is specially blended with the finest quality instant coffee, pure Ganoderma Extract and Non Dairy Creamer by a particular process.

Ingredients

Sugar, Non Dairy Creamer, Instant Coffee Powder and Ganoderma Extract

	Nutrition facts

Product code: FB002

Did you know?

- Only one bag of Lingzhi Coffee 3 in 1 contains 4,2 g instant coffee of premium quality?
- More and more people suffer from Lactose intolerance? DXN engineers use dairy products in the most inevitable cases.
- Non Dairy Creamer used in DXN drink powders (Instant Coffee powders, Nutrizhi) is a product from sugarcane origin. Contains Glucose Syrup from sugarcane origin, Palm Oil, Kazeic Acid, Phosphates (E340, E451), Emulsifiers (E 471, E472e) and natural coloring, Riboflavin (E 101).

Cocozhi

DXN Cocozhi is formulated from the finest cocoa with Ganoderma extract. Given the filtered bags, you can enjoy the chocolate taste anywhere you like. Just pour the contents in a hot cup of water and stir to enjoy a refreshing drink! Contains sugar and skim milk powder. Just have yourself a fine cup of chocolate!

Ingredients

Creamer, Sugar, Skim Milk Powder, Malt Extract, Cocoa, Ganoderma Extract, Vanilin

Did you know?

- Only one bag of Cocozhi contains 3 g Cocoa of premium quality?
- One bag of Cocozhi contains an average of 198,4 mg Potassium, 156,8 mg Calcium, 105,6 mg Phosphorus, 48,0 mg Sodium, 1,9 mg Vitamin C, 5,5 mg B3?
- Cocozhi may be prepared with water or milk as well!

Contains sugar and low-fat powdered milk. Free from artificial coloring and preservatives.

The Noni

(*Morinda citrifolia*)

Noni is a widely known and respected fruit, for nutrition, healthcare and curative reasons in the South-East Asian countries around the Pacific.

In ancient Hawaii, Noni bark and roots were used to make yellow and red paint, as coloring. When poverty struck, they used to eat the crude green noni fruits. Mixed with salt, verdant noni fruits are usable remedy for deep wounds and broken bones. Besides they used mellow noni to make bandages for bruises, wounds and abscesses. Even the juice is usable as pesticide and to get rid of hair lice. Besides Hawaii, noni fruit was commonly used in Malaysia, India and the historical Indochina.

Main components:

Proxeronine and Xeronine (alkaloids), Scopoletin, Damnacanthal, Asperuloside, and different types of Antrachinons

Dr. Ralph Heinicke discovered Xeronin. He worked in the Pineapple Research Institute Hawaii from the 1950's, studying enzyme extraction from pineapples and their potential industrial uses.

Main effects:

- antibacterial
- antiviral
- against parasite and worm infection
- analgesic
- immunomodulatory
- anti inflammatory
- anticancerous
- reduces cholesterol levels
- reduces blood pressure

Did you know?

- There is quality literature available about Noni in Hungarian?
- The first time distribution of Noni was legally permitted in form of juice it was by the European Union 2003/426/EC decision?
- 3800 tons of Noni was grown only in the Samoan Islands in 2005?

DXN Morinzhi Juice

DXN Morinzhi is a juice of the widely known Noni fruit (*Morinda citrifolia*) and Roselle (*Hibiscus sabdariffa*). It is a closely controlled process to preserve all active substance in these two valuable fruits. Have yourself a very tasty, exotic beverage with its valuable and healthy effect!

Ingredients

Morinda citrifolia Juice, Natural Fruit Juice (Roselle)

Free from preservatives, artificial coloring, flavouring, additives, substances from animal origin, and grains.

Nutrition facts

	100 ml	30 ml
Calories	36,6 kcal	11,0 kcal
Carbohydrate	8,6 g	2,6 g
Protein	0,4 g	0,1 g
Fat	0,1 g	0,0 g

Did you know?

- Only one serving of Noni juice contains an average of 6 mg vitamin C?
- A tropical non-alcohol cocktail might get an even more exotic taste with a few cents of Morinzhi added to it?
- Rosella also found in Morinzhi is a substance used for its roborating and detoxifying affects in teas and also during respiratory diseases occur to supply an adequate water intake for the body (also to keep the balance of vitamin and mineral intake).

Product code: FB055

Ganoderma

(*Ganoderma lucidum*)

Ganoderma gradually became more and more known to the Western countries, whereas it had been widely spread in Asia, but it is native even in Hungary.

Ganoderma has been known to the Far East, especially Japan, Korea and China for 4000 years. Used in Traditional Chinese Medicine (TCM) especially, and has reached a closely similar importance as ginseng. It was mentioned even during the Han Dynasty (200 B.C. until 200 A.D.) by name of Lingzhi. Emperor Wu of Han thought so highly of Ganoderma to consider it one of the tools for immortality, thus keeping it inside the castle walls.

Regular and scheduled use enhances immune functions, helps recovery of the worsened health, especially important in cancer treatment of stomach, pancreas, colon, liver as supplementary treatment, and also to reduce side effects of chemotherapy.

There are series of publications about Ganoderma used as adjuvant therapy for hepatitis, carcinoma, diabetes, leukemia, although most cases

lack control testing, which is elementary factor to be validated as proof. However, in the last decade there have been various sophisticated reports appear about the therapeutic potential of Ganoderma.

Numerous clinical and preclinical examinations certify positive pharmacologic effects. According to published reports the effects include anti-inflammatory, analgesic, radioprotective, chemo preventive, anticancerous, anti arteriosclerosis effects, but also conclude cases which prove it to help with sleeping, to reduce coagulation, blood sugar and blood lipids, also to protect liver, to prevent stomach ulcer, antioxidant effect, to reduce free radicals and antibacterial, antiviral (including HIV), and anti-aging effects.

Main components in the fully grown fruit body

Terpenoids (more than 140 of them have been identified so far, especially different types of Triterpenes), Carbohydrates (especially immunomodulant Polysaccharides), Proteins, Nucleotides, other (e.g. Serols, Cerebrosides)

Main components in mycelium

Terpenoids, Lactones, Alkaloids, Polysaccharides, Serins (Nitrogen free Polysaccharides)

Cordyceps (*Cordyceps sinensis*)

Cordyceps is medically considered one of the most important species of the Cordyceps genus, which consists of more than 400 species. It grows above 3000 m in the cold, marshy and snowy areas of the mountains of China and Tibet. Chinese Medicine gained the knowledge and usage of Cordyceps from Traditional Tibetan Medicine.

Main components:

Polysaccharides with low and high molecular weight and other sugar derivatives, Proteins, Peptides, Polyamines and Essential Amino acids, Sterols (e.g. Ergosterol, Delta-3-ergosterol, Campesterol), saturated and unsaturated Fatty acids (e.g. Palmitic acid, Stearic acid, Linoleic acid, Oleic acid), also Polycyclic Aromatic Hydrocarbons, water soluble and fat soluble Vitamins (K, Na, Mg, Fe, Cu, Mn, Zn, Se, Al, Si, Ni, Sr, Ti, Cr, Ga, V, Zr)

For experiments the mycelium, alcohol or water solutions, and the fruit body were mostly used. According to the chemical composition of the different Cordyceps products, different

effects were experienced.

It is important to note, that the effects listed are valid to Cordyceps mushroom, not DXN Cordyceps capsule.

Did you know?

- helps the kidney functions, and reduces protein and blood urination
- stimulates liver function and detoxification
- reduces pain sensations, and enhances body oxygene utilization
- raises worsened immune response, and enhances immune activity (intensifies natural killer cells' activity, and phagocytosis, raises number of macrophages, boosts reproduction of interleukins-2 and T-cell function)
- in rare cases slow down, or even block tumor growth (e.g. breast and lung cancer) by contributing to recovering an ill immune system, therefore raising survival rate
- in higher dosage cordyceps acts as immunosuppresent and controls immune reactions at an equivalent level as Cyclosporin (which might be important with organ transplant cases)
- reduces extremely high blood lipid levels, especially cholesterol and triglicerid level
- for other factors it has positive effect on the heart (e.g. blocks deposition of cholesterol in arteries, widens veins, prevents blood clotting, thus helps flow-through in veins)
- positively effects carbohydrate metabolism and reduces blood sugar
- helps to resolve bronchi and to expel stucked sputum, thus eases respiration
- raises the antioxidant capacity of the body
- blocks reproduction of certain viruses and fungus
- resolves stress and anxiety

DXN Cordyceps capsule

DXN Cordyceps capsule consists of 100 % Cordyceps sinensis. It contains abundance of nutrients and bioactive compound such as Cordycepic Acid, Cordycepin, amino acids (e.g. Glutamic Acid, L-Tryptophane, L-Arginin, Lysine) etc.

Ingredients

100% *Cordyceps sinensis*

Dosage:

1-3 capsules daily

Casing substance:

Hypromellose

Active substance per day:

1 capsule	450 mg
2 capsules	900 mg
3 capsules	1350 mg

Net weight: 60 x 450 mg

Product code: HF024

Did you know?

- Cordyceps mushroom have been commonly used in Tibet and China for the past 1000 years?
- The first written document mentioning the substance in a medical context is connected to China in XII. century?
- The mushroom is a parasite of the larva of the Ghost Moth genus, whereas grown in industrial surrounding the cultures are grown fully on vegetal media?

DXN Cordypine

DXN Cordypine is a blend of quality Cordyceps with naturally fermented pineapple juice. DXN Cordypine is a potent formula as the pineapple enzymes produced from fermentation are capable of working synergistically with Cordyceps giving better result and excellent performance.

Ingredients

Pineapple juice (55 %), Sugar (30 %), Cordyceps sinensis (10 %), Lime (5 %)

	Nutrition facts	
	100 ml	20 ml

Product code: FB028 (700 ml)

Did you know?

- 20 ml Cordypine contains hardly 8 g of Sugar, 2,24 mg Potassium and 1,4 mg Sodium?
- Cordypine is cholesterol free, low in fibers and has a very exotic taste?

Dosage:

3 x 20 ml daily dissolved in 180 ml water

Contains added sugar! Free from preservatives, artificial coloring, additives, substance from animal origin and grain.

Lion's Mane Mushroom

(*Hericium erinaceus*)

Lion's mane counts as delicious nutriment, and valuable herb for centuries, and it is possible to cultivate even in Hungary.

In China, where this mushroom counts as exquisite meal it is called monkey head mushroom. In Japanese, the name - Yamabushitake refers to a hiding lifestyle, as in Japanese the Buddhist hermits bear the name yamabushi.

Main components:

Polysaccharides (different β -glucans), Diterpens (e.g. Hericenone A-H, and Ericenins), Adenosin, Oleic acid, Proteins and Amino acids (contains Phenylalanin, Histidine, Leucine, Iso-leucin, Lysine, Threonine, and Valine of Essential amino acids), of Minerals and Trace elements: Phosphorus, Iron, Potassium, Calcium, Vitamins B1 and B2

Modern research proved positive effects of Lion's mane that had been long accounted for by Traditional Chinese Medicine.

Chinese, Japanese, Korean and American researchers report the following curative effects:

- antimicrobial
- anticancerous and blocks tumor growth (by stimulating natural kill cells, T-cells, β -cells, macrophages dependent immune response)
- immunomodulant (aspecific immunostimulant)
- antioxidant
- reduces blood sugar and blood lipids
- preventive against dementia
- Especially for containing hericenone C, H, and erinacine A and I, Traditional Chinese Medicine uses it for bowel syndrome and gastric disorder treatment, also against neurasthenia and exhaustion.

Did you know?

- First to report on it in our culture was C.H. Persson in 1794!
- Besides the official name, it is known by several other names, such as Hedgehog mushroom, Pom pom mushroom, Bearded tooth etc.?

DXN Lion's Mane Tablet

Lion's Mane Mushroom has been a very nutritious and valuable food in China and Japan since hundreds of years ago. It contains almost all types of important Amino acids needed by the body and it is also rich in nutrients, minerals, polysaccharides, adenosine and protein.

Ingredients

60 % *Hericium erinaceus* (mycelium),
40 % Lactose

Dosage:

6 tablets daily

Active substance per day

6 tablets *Hericium erinaceus* (mycelium):
1080 mg

Net weight: 120 x 300 mg

Product code: HF029

Contains Lactose! If you suffer lactose intolerance be aware!

Did you know?

- Lion's Mane Tablet is available in Hungarian market since 2010!
- The product is optimized according to value-cost, considering that one tablet costs 50 Ft!

A Spirulina (*Spirulina platensis*)

Spirulina platensis algae grows in a spiral pattern, typically of 5-7 twists. It is one of the most known marine algae. It is spread in tropical, subtropical waters, with high carbonate content and relatively alkaline pH around Africa, Asia, Mezo- and South America.

It is important to mention that humanity have used great organisms of marine red, brown and green algae for thousands of years as fertilizer, nutrient, medical use, furthermore today for cosmetics as well.

Main components:

C-phykocyanin (blue coloring, not containing Magnesium), Chlorophyll (green coloring, containing Magnesium), cca 50 % Protein (thus rich in Amino acids including Essential Amino acids), Polysaccharides with high molecular weight (such as Spirulane Calcium salt), Sulpholipids, γ -linolenic acid (nearly 1 %), β -carotene, and other Carotinoids, Vitamin B, D, E

Spirulina helps to cease the symptoms of malnutrition caused by illnesses, also helps with recovery, and metabolism disorders (abnormally high blood lipids or blood sugar), supplementary treat-

ment in tumor therapy, treatment of conditions with inflammation, and reduces inflammations. Also reduces side effects of medicaments, also protects liver-, kidney- and heart, prevents infections, and reduces symptoms of respiratory diseases. It is good to mention, that in many cases *Spirulina* is combined with other types of algae, most often a very quickly reproductive and common type, one of the Chlorophytes phylum, called *Chlorella vulgaris*, green algae.

Did you know?

- *Spirulina* contains all essential amino acids?

Recommended literature:

Tihanyi András, [Prof. Dr.] Tóth József, Weber-Suta Ágnes: *Zöld utat az egészségnek! : Mikroalgák szerepe a modern táplálkozásban és a gyógyításban.* [Budapest] : [Bereniké Szolg. és Tanácsadó Kft.], 2008. 119 p. ISBN 978 963 06 5961 1

DXN Spirulina tablets

Spirulina, a type of blue green algae is rich in protein, vitamins E and B, also contains Beta-carotene, Chlorophyll, fibers, minerals and Nucleic acids. Regular consuming helps to balance the acid base equilibrium in the body.

Ingredients

Spirulina platensis (96,3 %), Talc (1,7 %), Calcium Carbonate (1,2 %), Acacia (0,8 %)

Dosage:

6 tablets daily

Active substance per day:

<i>Spirulina platensis</i>	1444,50 mg
Talc	25,50 mg
Calcium Carbonate	18,00 mg
Acacia	12,00 mg

Free from preservatives, artificial coloring, flavoring, additives, substance from animal origin and grain.

Net weight: 120/500 x 250 mg

Did you know?

- Spirulina is mainly not collected from its natural habitat, but it is cultivated on farms. DXN Spirulina farm is a 87.000 m² area where cultivation takes place in pools.
- Spirulina is one of the best solutions against the overacidification of the body.
- NASA and ESA (european space agency) classified Spirulina as recommended food for astronauts, and also classified it as one of the first „plant“, which should be cultivated if colonization would take place.

Product codes:

**HF031 (120),
HF038 (500)**

DXN MycoVeggie EU powder

DXN MycoVeggie is a food supplement carefully prepared from the finest all-natural ingredients including herbs, vegetables, fruits, various mushrooms, Spirulina, and Chinese Green Tea. DXN MycoVeggie is low in fat, sugar-free, cholesterol-free and rich in water soluble and non-soluble fibers.

Ingredients

Plantago psyllium, Apium graveolens, Morus microphylla, Ginkgo biloba, Zingiber officinale, Cymbopogon citratus, Lentinus edodes, Lyophyllum decastes, Calocybe gambosa, Hericium erinaceus, Pleurotus pulmonarius, Zea mays, Citrus aurantifolia, Citrus sinensis, Spirulina platensis, Camellia sinensis, Pericarpium Citri reticulatae, Cinnamomum zeylanicum, Illium verum, Eugenia caryophyllus

Dosage

For satisfying effect drink one spoonful in plentiful of water

Free from preservatives, added sugar, coloring and other additives.

Net weight: 400 g

Product code: HF056

Did you know?

- MycoVeggie EU powder contains *Plantago psyllium* 23,26 %, therefore with allergies towards Plantains, taking is not advised!
- Consumption of Celery seed is not advised for those suffering kidney inflammation!
- The product consists 8,14 % *Ginkgo biloba* leaf. In rare cases, regular consumption causes temporally upset stomach, headaches, or allergic reaction. Consumers taking acetylsalicylic acid, or blood-thinners should consider taking MycoVeggie EU carefully.

DXN Ganozhi Toothpaste

DXN Ganozhi Toothpaste does not contain Fluoride, Saccharin and coloring, only high quality Ganoderma Extract, Peppermint oil and Menthol. It can effectively cleanse your teeth, thus leaving a pleasant taste in your mouth.

Net weight: 150 g

Product code: PC006

Ingredients

Dicalcium Phosphate, Aqua, Sucrose, Glycerin, Sodium Alginate, Menthol, Ganoderma lucidum, Peppermint oil, Sodium Lauryl Sulphate

DXN Ganozhi soap

Ganozhi Soap is specially formulated and enriched with Ganoderma Extract and Palm Oil. It gently cleanses the skin while preserving its natural oils without damaging skin structure. Besides the use of Palm Oil which is rich with vitamin E and anti-oxidant agents help to revitalize your skin. Ganozhi Soap leaves your skin feeling smoother and softer.

Ingredients

Sodium Palmate, Ganoderma lucidum, Glycerin, Fragrance

Net weight: 2 x 80 g

Product code: PC001

Ganozhi Shampoo

DXN Ganozhi Shampoo with pH balance is suitable for all hair types. Enriched with Ganoderma Extract and pro vitamin B5. DXN Ganozhi Shampoo is mild and makes your hair healthier, softer and shinier.

Ingredients

Aqua, Betaine, Sodium Lauryl Ether Sulphate, Cocamide DEA, Lanolin, Glycerin, Ganoderma lucidum, Hydroxy Ethyl Cellulose, Panthenol, Fragrance

Net weight: 250 ml

Product code: PC004

Ganozhi Body foam

Enriched with Ganoderma extracts, DXN Ganozhi Body Foam gently cleanses your skin without removing the natural oil of the skin, thus, leaving your skin soft and smooth.

Ingredients (INCI):

water, betaine, sodium lauryl ether sulphate, DEA cocamide, lanolin, glycerin, Ganoderma Lucidum, hydroxy ethyl cellulose, tocopherol acetate, fragrance

Net weight: 250 ml

Product code: PC005

DXN Ganozhi Liquid Cleanser *facial cleanser liquid*

A specially formulated product with Ganoderma Extract that gently and effectively removes dead skin cells, nourishes your skin and balances skin oil content. Fully cleanses the skin and tightens the pores, results a soft and rejuvenated skin. Suitable for every skin type.

Ingredients

Aqua, Ammonium Lauryl Sulphate, Cocoamidopropyl Betaine, Glycerin, Fagus sylvatica Extract, Yeast Extract, Sodium Benzoate, Sodium Chloride, Fragrance, Citric Acid, Ganoderma Ex-

tract, Panthenol, Hydrogenated Castor Oil, Polysorbate 20, Octoxynol-11

Best usage

Put a slight amount on your palm and adding water, rub it to create foam. Massage into the skin, and rinse your face with plenty of water. Use regularly daily in the morning and evening and next step use DXN Ganozhi Toner, and third step Ganozhi Moisturizing Micro Emulsion.

Net weight: 150 ml

DXN Ganozhi Toner *toner liquid*

Ganozhi Toner is an exclusive formula of Ganoderma lucidum. Removes the remains of the Cleanser enhancing the cleansing effect of the Ganozhi Cleanser. Toning and cleaning the skin without drying it. Using regularly after every cleansing helps you revitalize the healthy skin cells.

Ingredients

Aqua, Fagus sylvatica Extract, Yeast Extract, Sodium Benzoate, Fragrance,

Allantoin, Ganoderma Extract, Hydrogenated Castor Oil, Polysorbate 20, Octoxynol-11, Glycerin, Propolis Cera, Potassium Sorbate

Best usage

Following washing the face with Ganozhi Liquid Cleanser put some Ganozhi Toner on a cotton pad and gently with circular movements massage the skin. Avoid the area of the eyes!

Net weight: 150 ml

DXN Ganozhi Moisturizing Micro Emulsion *moisturizing emulsion*

Ganozhi Moisturizing Micro Emulsion is a unique product that helps to improve skin texture and leaves your skin well hydrated during the day. Each use is leaving your skin smooth and radiant all day long.

Ingredients

Aqua, PEG-8 Caprylic, Polyglyceryl-3 Diisostearate, Isostearyl Isostearate, Ethoxydiglycol, Cyclomethicone, Ginseng Extract, Arnica Extract, Fagus sylvatica Extract, Sodium Benzoate,

Fragrance, Ganoderma Extract, Tocopheryl Acetate, Hydrogenated Castor Oil, Polysorbate 20, Octoxynol-11

Best usage

Following washing the face with Ganozhi Liquid Cleanser put some Ganozhi Toner on a cotton pad and gently with circular movements massage the skin. Avoid the area of the eyes!

Ganozhi Complete Skin Care
Series Product code:
FB 076

Gano Massage Oil

Massage Oil containing ganoderma extract

DXN has created Gano Massage oil, which provides revolutionary new refreshing massage.

Gano Massage Oil contains the finest palm oil and Ganoderma extract suitable for every massage need. Palm oil is rich in vitamin E, which is a powerful antioxidant, capable of reducing the amount of harmful free radicals in the body. Suitable for all skin types and all ages. It is also useful for mild injuries, burns, and cramps. Since it is made from natural ingredients, it can be applied daily and on sensitive skin as well.

Ingredients (INCI):

Palm Oil, Ganoderma Extract

Direction for use:

Shake before use!

Pour the required amount to the palm and massage it smoothly.

For deep and surface massage, mainly for large bodysurfaces. For external use only!

Net weight: 75 ml

Product code: PC007

Did you know?

- Easily absorbed by the skin and does not clog the pores.
- Clogged pores slow the skin's ability to eliminate toxins.
- Massage increases blood flow and relieves joint aches and pains..

Cleansing Gel

soap free face wash

Gently and effectively cleanses and clear your skin and pores without stripping off its natural moisture content.

Ingredients

Aqua, Glycerin, Cocamidopropyl Betaine, Sodium Cocoyl Alaninate, Propylene Glycol, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Aminomethyl Propanol, Phenoxyethanol, Aloe barbadensis (Aloe Vera) Extract, Fragrance, Methylisothia-

zolinone

Best usage

Put right amount in your palms and adding water create foam, and apply to your skin. Massage your skin gently, rinse then dry softly your face skin.

Net weight: 100 ml

Product code: SC020

Hydrating Toner

hydrating tonique

A refreshing hydrating unique skin care formula that contains extracts of Aloe Vera, witch hazel, and amino acids special. Removes traces of make up and the cleanser, impurities and dead cells resulting a perfect second cleansing of the skin. Cleanses while tightens skin pores. A non-drying formula while it refreshes and softens the skin, leaving the skin smooth and supple.
